Plans

Choosing a plan that's right for you and your family is so important. That's why we offer easier access to better — and more affordable — health benefits solutions. And we'll be right there to help you find the perfect fit.

Stay in network to help lower costs

When you go for care, keep in mind that staying in network has special perks. You may have lower out-of-pocket costs, because these providers have agreed to accept our contracted rate for services. Plus, they'll file claims for you, so you don't have to worry about any extra work.

Know what to expect if you go out of network

Some plans may have out-of-network benefits, too. Just know you may have higher out-of-pocket costs. Plus, you may have to file your own claims and/or get preapproval for some services.

Understand that we cover emergency care

In case of an emergency, we'll cover care both in and out of network. So whatever plan you choose, know you can count on us when the unexpected happens.

Medical

Aetna Open Access® Managed Choice® health insurance plan **Known as Managed Choice POS in CA**

Visit any doctor, no referrals needed

You don't have to choose a primary care physician (PCP)* with this plan. But selecting a PCP is still important because they do more than give you a checkup. They:

- Get to know you and your medical history
- Guide you on important health decisions and direct your care
- File claims for you

Plus, you may pay less out of pocket for their care.

This plan also gives you access to our tools, tips, programs and services. They can help you find network doctors, estimate costs and more.

Health Maintenance Organization (HMO) health benefits plan **Known as HMO plan in CA**

You choose your primary care physician (PCP)*

Having one doctor as your first contact can make a difference. PCPs do more than give you a checkup. They:

- Get to know you and your medical history
- Guide you on important health decisions and direct your care
- Direct you to other doctors in our network if you need special attention

This plan has in-network benefits only. Visit our online directory at [Aetna.com](https://www.aetna.com) to find a PCP or network doctor.

Aetna Value NetworkSM HMO Plan **You choose your primary care physician (PCP)**

Having one doctor as your first contact can make a

difference.

Choose any PCP from the Aetna Value Network HMO. Choosing a doctor is a personal decision. That's why each family member chooses their own PCP. And you can change your PCP at any time.

PCPs do more than give you a checkup. They:

- Get to know you and your medical history
- Guide you on important health decisions and direct your care
- Direct you to other doctors in our network if you need special attention

Plus, you may pay less out of pocket for their care.

Go to your PCP for checkups, or whenever you're sick or hurt.*

- They'll help you decide if you need care from another doctor. If so, your PCP will give you a referral.
- Sometimes, you will need care that requires approval from us first. Your doctors will get this approval for you.

You need to choose a PCP and see health care professionals in the Aetna Value Network HMO to receive benefits through this plan*.

*In case of emergency, call 911 or your local emergency hotline, or go directly to an emergency care facility.

*In Texas, PCP is known as physician (primary care). In the State of Washington, PCP refers to primary care provider.

Pharmacy

Aetna® pharmacy solutions

The perfect balance of savings and choice

As part of CVS Health®, we can offer you best-in-class pharmacy benefits. Aetna plans can help you balance cost savings with the choices you want. And when you combine your pharmacy and medical benefits, you give us more information to help you on your path to better health. This can help keep your costs in check, too.

Specialty Pharmacy Management

Specialty medications with personalized support

You'll always have the specialty medicine and supplies you need with participating specialty providers. We offer personalized support every step of the way. And make it easy for you to manage your medicine. We handle them with special care and provide convenient delivery. So you can spend time on what matters most to you.

Coverage of your specialty medicine

Your pharmacy plan covers some drugs, and your medical plan covers others. Depending on your plan, you may need to pay a copayment or coinsurance. And certain drugs require precertification. This just means you need approval from the plan before they'll be covered. If you have questions, talk with your provider or call us at the number on your member ID card.

Paying for care

An overview of key terms

Claims

Claims are requests for your plan to pay for services you receive. We use these to check what your plan will cover and the amount we'll pay. You can find the status and amounts billed for your claim on your member website or the Aetna HealthSM app.

Explanation of Benefits (EOB) statements

An EOB shows a breakdown of how we process claims. It's not a bill and may not show the current balance you owe. And anytime something changes with your claim, you'll get a new statement.

Provider bills

Bills show the amount you actually owe for services. Your provider will give this to you. You can make payments for what you owe directly to them or through the "Pay Your Provider" link on each of your claims.

Coordination of benefits (COB)

Some members have health coverage under more than one plan. If so, we work with the other carriers to decide which plan pays first and which pays second, based on the rules in your plan documents. We call this process COB.

YOU PAY

Deductible

The deductible is the amount you pay for out-of-pocket costs for your covered health care before your plan begins to pay.

Each year, you pay 100% of your covered expenses until you meet your deductible amount. For most plans, eligible preventive care is covered at 100% with no deductible when you use network providers.

YOU + THE PLAN PAY

Cost sharing

Once you meet the deductible, you share the cost with the plan. This may be in the form of coinsurance and/or copayments (also called copays).

Coinsurance

This is a fixed percentage. For example, if your care is \$100 and your coinsurance is 20%, you pay \$20.

Copay

This is a fixed dollar amount. For example, you may pay \$25 per doctor office visit.

Out-of-pocket maximum

The maximum you pay each year for covered expenses. Once you hit your maximum, the plan pays 100% of covered expenses for the rest of the year.

Our network

When you need to find the right care, it's always reassuring to know you have choices. Our vast network includes trusted primary care doctors and specialists, hospitals and other health care providers.

And it's never been easier to connect with care. Just use our provider search tool on your member website or use the Aetna HealthSM app when you're on the go.

Participating urgent care centers

Unless you are having a true medical emergency, the ER is not the best place for your care! Instead, try an urgent care center.

If you have a pressing, but not life-threatening medical issue, think about going to an urgent care center, walk-in clinic or MinuteClinic® location.* These centers can treat sinus infections, the flu, allergies, minor cuts and more.

There are over 8,000 participating locations.†** Many are open seven days a week, with easy appointment scheduling and convenient hours. You'll typically pay less — and cut your waiting time, too. Look up the nearest urgent care center or health clinic on **Aetna.com**. Select "Find a doctor" to use our directory. Or use the mobile app.***

*Member responsibility may vary based on plan design; for some plans, copays apply. Emergency room (ER) copays are typically higher than walk-in clinic copays.

** Includes urgent care centers, walk-in clinics and MinuteClinic and HealthHUB locations.

***Standard text messaging and other rates from your wireless carrier may apply

Participating retail walk-in clinics

Easy access, with no appointments needed

After office hours or inconvenient to get to the doctor? Try a retail clinic. Visit one for high-quality treatment of minor illnesses like strep throat, seasonal allergies, and even vaccines.

You'll enjoy:

- Convenient hours, with some open seven days a week with night and weekend hours
- Lower prices, such as an average of \$81 per clinic visit compared to \$750 to \$1,000 average emergency room (ER) price*¹

We have many stand-alone and store-based clinics nationwide. Find them in our online directory at **Aetna.com** — just select "Find a doctor."

*Member responsibility may vary based on plan design; for some plans, copays apply. ER copays are typically higher than walk-in clinic copays

Choose generics first

The simple way to get your best coverage

When a drug has a generic equivalent but your prescription is filled with the brand-name drug, you'll pay the difference in cost between the generic and brand-name drug. You'll also be responsible for your required copay or coinsurance.

Be sure to talk to your doctor about generic choices to see if they're right for you. If they feel the brand-name drug is medically necessary, they can ask for approval to cover the prescription drug at the brand cost share. If we approve the drug for medical necessity, you won't have to pay the cost difference between the generic and brand-name drug.
